

My Responsibility to America

My responsibility to America is to be a respectful citizen and proud supporter of our nation. I need to be available to help my country and participate in the democratic process. I should get a job and pay taxes to help my nation and respect others and their beliefs. There are many rights that Americans are able to enjoy every day, but there are also responsibilities that every citizen should act upon in order to “Form a more Perfect Union.”

I have many responsibilities to my country, and one of them is to obey the law. Being lawful promotes morality and kindness among our citizens. It is my duty as a civilian of the United States to obey the law and respect the officials who work in the judicial department. The purpose of following the law is to preserve a safe environment for society to live in. Therefore, if we citizens follow the law, we can form sound surroundings for our nation.

Another responsibility towards my country is to defend the Constitution. The Constitution is the Supreme Law of the Land. It sets out the purposes, processes, and structures of our government. This document is the base of our nation’s foundation, and I believe that every citizen should support this Constitution with full loyalty and pride. Defending the Constitution is a responsibility that I have to my country.

As a citizen of the United States, I believe that everyone’s rights deserve to be respected. The United States is infamously known as the “Melting Pot” nation. The individuals of this country come from many nationalities and religions. The people in

America, as stated in the Constitution, have the freedom of speech and religion. We all have different opinions and we all believe in different concepts. It is my responsibility to America to respect the rights and opinions of others.

I believe that getting an education is another important responsibility that we owe to America. The United States has created and offered a great educational system that allows us to learn about fundamentals of being a good citizen. Individuals should attend these schools in order to become educated citizens of our country. In addition to learning to become a respectful citizen, education also prepares us for obtaining a job and beginning a career. When people become educated and gain jobs, they become responsible citizens by paying taxes. An increase in taxpayers will help improve our nation greatly. Earning an education, obtaining a job, and paying taxes are responsibilities we have to our country.

There are many responsibilities we have to our country as citizens of the United States. Being lawful, defending the Constitution, respecting other citizens' rights and opinions, and becoming educated, earning a job, and paying taxes are only a few actions we can take to be trustworthy and mature citizens. I am so thankful for the wonderful nation of America that I live in, and I want to contribute my time and allegiance to my country.
