# MISSION STATEMENT OF THE DOLPHINS GIRLS BASKETBALL TEAM

The mission statement of the Dolphins girls' basketball team is to create an atmosphere of enthusiasm and love for the game, to have an enjoyable experience and to constantly grow as individuals in our basketball abilities and life long skills.

## SUCCESS

---

---

We believe that in order for our team to be successful we must become a "family". If we can believe in ourselves, believe in our coaches, and believe in our teammates, success will be achieved. EVERYONE from managers to players to coaches to parents must have the best interest of the TEAM in mind. We must remember that everybody cannot be successful all the time, but we ALL must put forth our greatest effort ALL the time in order for TEAM success.

### BASKETBALL PHILOSOPHY

#### OFFENSE

We believe in order to be successful on offense we must follow the basic principles of floor spacing, shot selection, passing, screening and moving without the basketball, and unselfish play. We believe in pushing the ball up the floor quickly but in a controlled fashion, and using this fast break situation as part of our offensive scheme with everyone knowing their role on the floor.

Within our half-court offense, our system is based on a set-motion and the ability to read the defense. Every situation we are put in by the defense has a rule that our team looks to as a way to combat that situation.

#### DEFENSE

We believe in position/team defense. We must learn man-to-man principles and be able to play good aggressive man-to-man in order to play any other type of defense. Good man-to-man defenses look like zones, and good zone defenses look like man-to-man in our system. We adjust our defenses based on what we feel will give us the best opportunity to be successful against our opponent each night out.
